

What can Braketex[®] do for you?

Case study

For years, Trident 10-ton haul trucks with Clark 16D axles running at Stillwater Mining in Montana, USA averaged only 1400 hours between brake rebuilds using OEM friction discs. Stillwater trialed **Tribco** part DU-1475 *Braketex*[®] lined friction discs on two trucks and now uses *Braketex*[®] discs on its entire fleet of 16 trucks. *Braketex*[®] consistently delivers 4500 hours between rebuilds!

Braketex[®] average 4500 hours

OEM average 1400 hours
